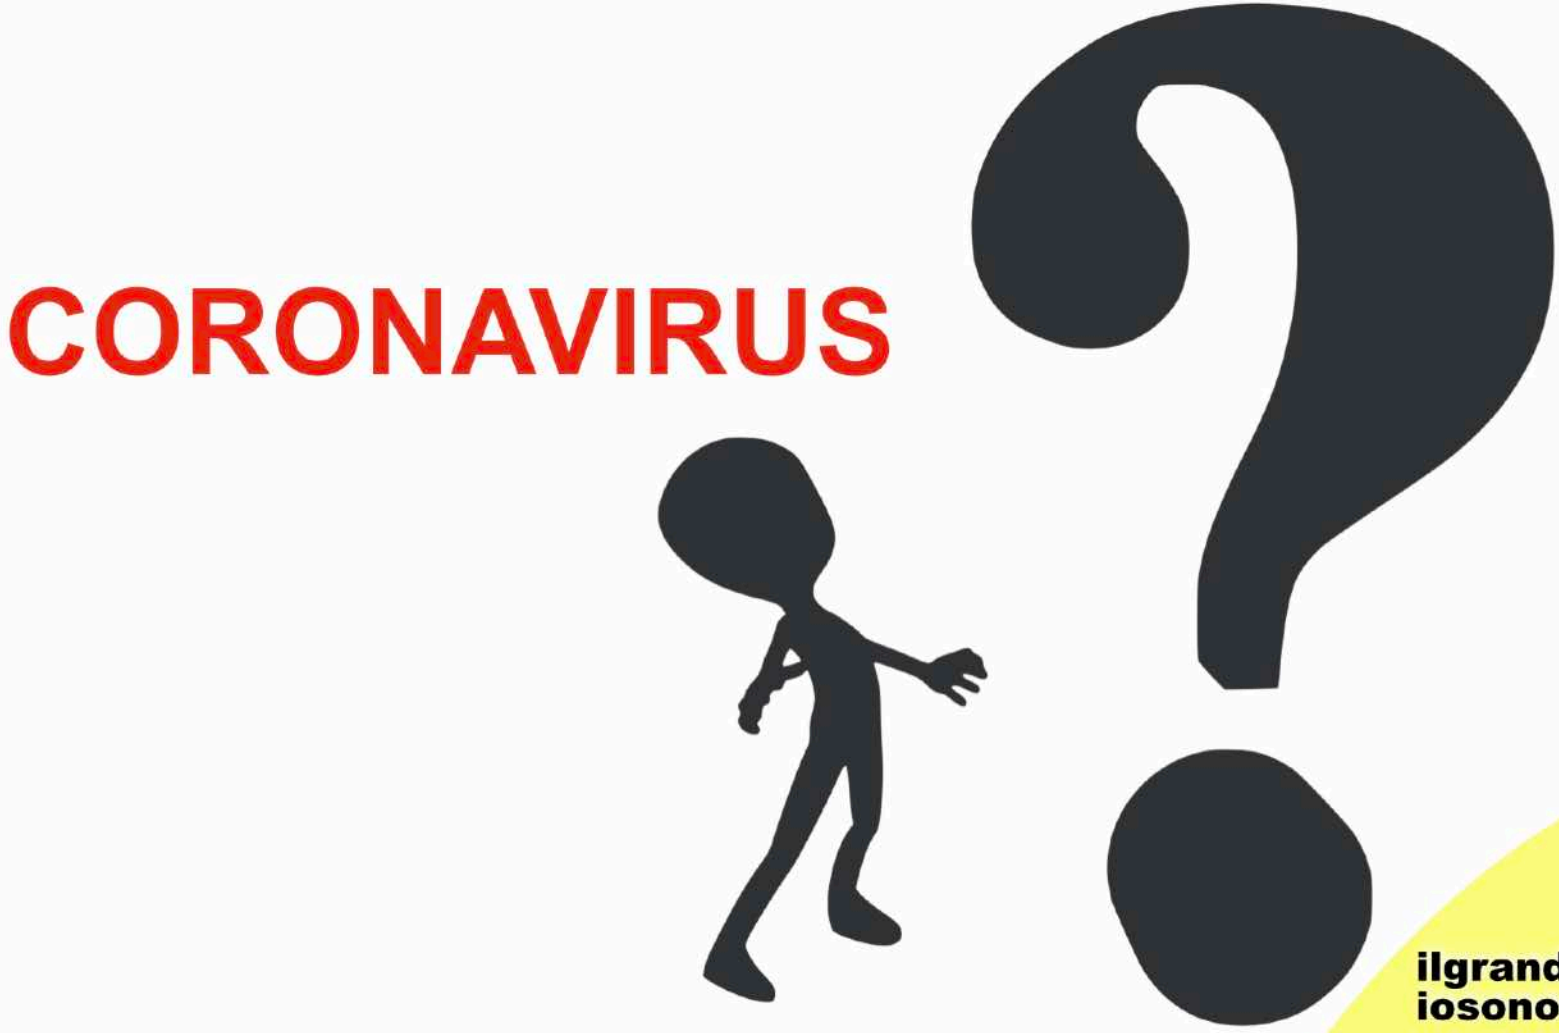
WHAT IS CORONAVIRUS?



ilgrandecolibri.com
iosonominoranza.it

THE NEW CORONAVIRUS IS A VIRUS THAT CAN CAUSE A FEVER, COUGH, SORE THROAT, DIFFICULTY BREATHING, PNEUMONIA. THESE EFFECTS APPEAR 2 TO 14 DAYS AFTER THE INFECTION.

Like other respiratory diseases, its effects can be weak or serious.
It can cause death only in a few cases, especially in elderly and ill people.

THE VIRUS PASSES FROM ONE PERSON TO ANOTHER THROUGH SALIVA AND SMALL DROPS OF BREATH, FOR EXAMPLE WHEN AN INFECTED PERSON COUGHS, KISSES YOU OR IS VERY CLOSE TO YOU.

WHAT DO YOU HAVE TO DO?

THE RULES ARE SIMPLE.

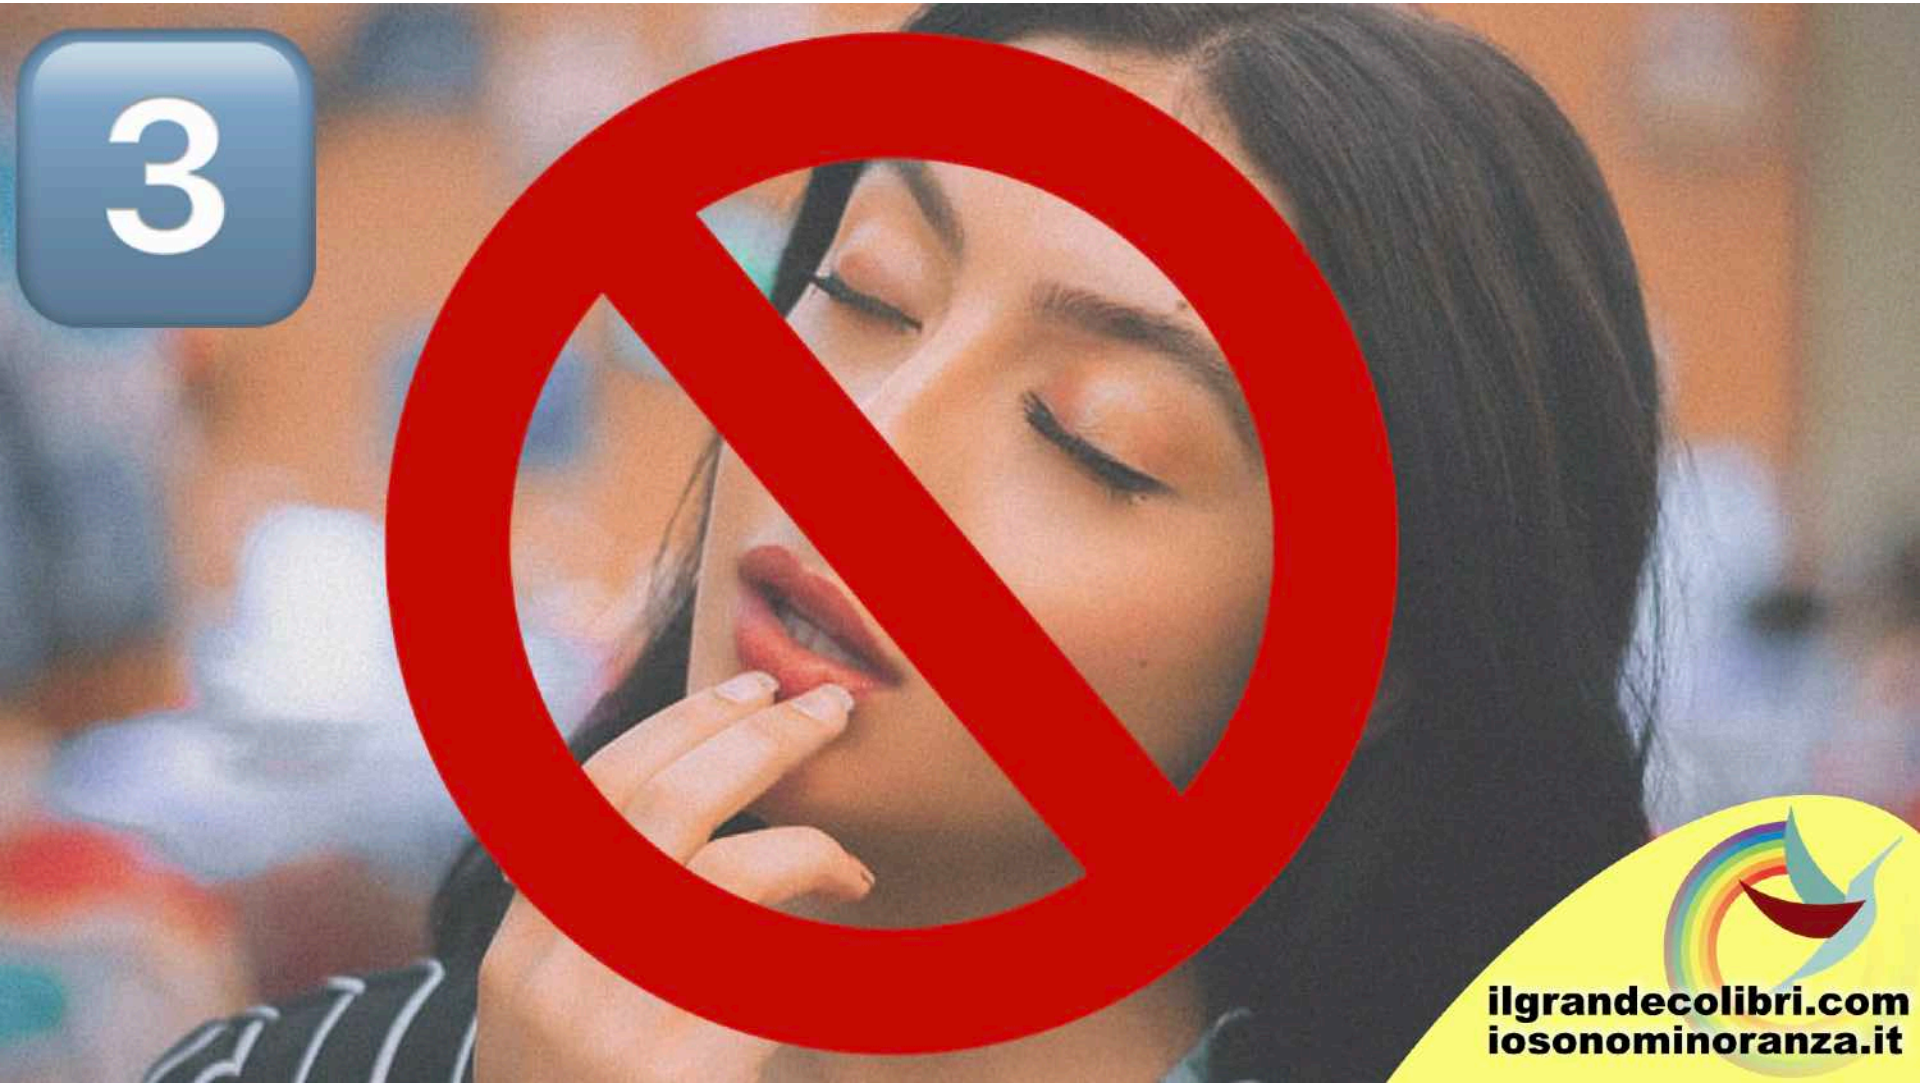
iosonominoranza.it

If you have fever, cough, sore throat or difficulty breathing, call your doctor or 1500.
Do not go to the emergency room.

Always cough into a tissue and throw it away immediately. Then immediately wash your hands with soap and water for at least a minute.

Do not touch your mouth, nose and eyes before washing your hands.



STAY AT LEAST ONE METER AWAY FROM THOSE WHO COUGH, HAVE A COOL, OR HAVE A FEVER.

Do not be racist: diseases are not anyone's fault and do not affect any particular human group.

SEND THIS INFORMATION TO YOUR FRIENDS TOO.
